

MT-II

Midnight Tracker Series

High performance electronic photocontrol that turns the light on at sunset and turns the light off at the mid point of the night. It tracks the mid point in the night on a daily basis and automatically adjusts for the seasonal changes in sunrise and sunset.

Mid-Night turn off saves
50% in Energy Costs

Addresses Light Trespass Issues

*Ideal for all areas where
lights do not need to be on all night*

Specifications

Three prong locking type electronic photocontrol with silicon sensor photocell

Voltage: 105-305 VAC 1,000 watt/1,800 VA

Surge Protection: 640 Joule MOV

Meets or exceeds ANSI C136

Ordering Information

Model	Function
MT-II	Turn on at Sunset, Turn off at Midnight Turn on Before 6:00 AM, Turn off at sunrise
